

ABOUT Future Fund

We are a registered public fund, managed by ABC Foundation Ltd, dedicated to supporting Aboriginal and Torres Strait Islander organisations in alignment with our strategic plan. Our vision is to strengthen remote and regional communities across Australia.

Supported by philanthropic and corporate donations, the Future Fund operates nationally with a focus on regional impact. Bi-annual grants are awarded to eligible organisations implementing projects under the On-Country Development and Care guidelines. This selective application process aligns with our strategic priorities and emphasises measurable social outcomes.

Your tax-deductible donation to the Future Fund empowers us to continue supporting community-led projects, which make a direct impact by supporting:

- Empowering Future Generations
- Closing the Gap through Community-Led Solutions
- Building on Local Skills in Communities
- Supporting Pathways to Community Economic Development
- Strengthening Remote and Regional Communities
- Enabling and Championing Grassroot Initiatives
- Supporting Women, Children and their families
- Preserving language and culture.

On-Country DEVELOPMENT

Our Programs are designed to empower young people through a two-way learning approach that opens pathways to education.

We focus on funding grassroots community initiatives that support Aboriginal and Torres Strait Islander children and their families.

We measure our impact through increased school attendance and engagement among Aboriginal children and their families.

On-Country CARE

On-Country Care is dedicated to supporting the most vulnerable and high-risk members of our communities, with initiatives that also promote the care of our fragile environment.

We fund grassroots programs that support those at risk, including children, youth, elders, and people with disabilities.

Our impact is measured by improvements in both community well-being and environmental health.

Current statistics for Aboriginal and Torres Strait Islander people and Country

54%

remote families face food insecurities¹

39%

children don't attend school²

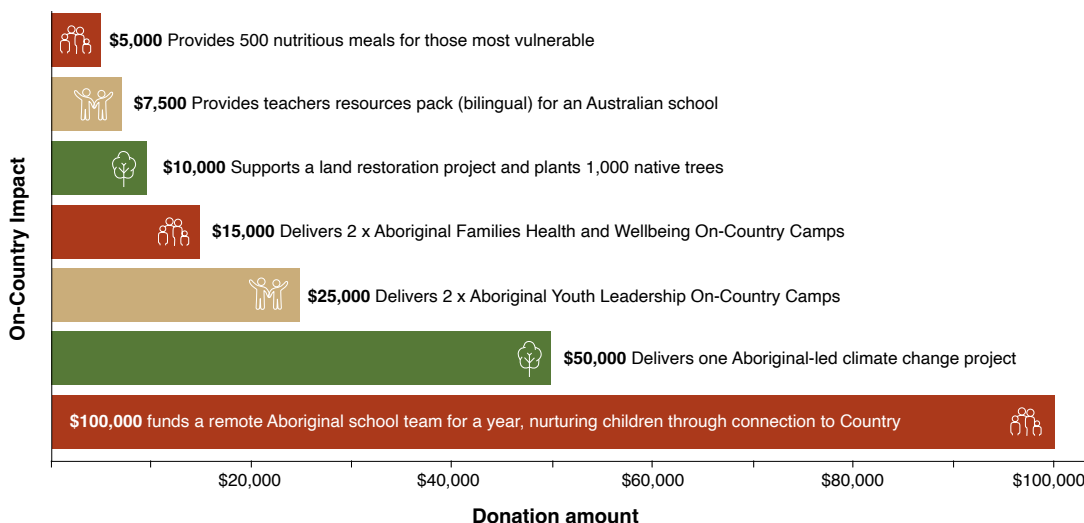

54%

families below the poverty line³

40%

of all forest cover lost⁴
